# green style

Grande o piccolo che sia, tradizionale o moderno, semplice o ricercato, ogni giardino vive di cure, attenzioni e di scelte che sono prima di tutto un'espressione di stile. A queste scelte Stefanplast dà una forma con ampie soluzioni di articoli indoor/outdoor dove al trend innovativo della linea Opera si unisce ETHICA, una nuova collezione di vasi, balconette e fioriere di design, elegante nella finitura e nei colori e interamente realizzata in materiale riciclato. Armonie floreali, nuance ricercate e forme tradizionali, un completo assortimento di prodotti realizzati in stile italiano, per offrire un vero e proprio "universo" per la vita in & outdoor, godendo appieno la bellezza della natura tutto l'anno.

Whether large or small, traditional or modern, simple or sophisticated, every garden needs care, attention and choices that are first of all an expression of style. Stefanplast gives shape to these choices with a wide range of indoor/outdoor items. The innovative trend of the Opera Line is now joined by ETHICA, a new collection of pots, balconies and flowers boxes fully made of recycled material, with a refined design and elegant finish and colours for an absolutely unique proposal. Floral harmonies, sophisticated shades and traditional shapes, a complete assortment of products developed with an Italian taste, to offer a real "universe" for indoor & outdoor life and fully enjoy the beauty of nature all year long.

# made in Italy

since 1964

## design

Soluzioni progettuali innovative e funzionali, cura dei particolari e delle forme. Questi sono gli obiettivi che i designer Stefanplast studiano quotidianamente per dare origine a prodotti che migliorino la qualità della vita.

Innovative and functional design solutions, attention to detail and forms. These are the goals that Stefanplast designers study daily to give rise to products that improve the quality of life.

## qualità e certificazioni

quality and certification

Ogni giorno un impegno costante nel miglioramento degli standard produttivi e dell'efficienza, per realizzare manufatti di qualità superiore e durevoli nel tempo. A distinguerci è soprattutto la qualità del pensare, in una continua e capillare evoluzione che si estende ad ogni aspetto dell'attività aziendale: dalla progettazione alla produzione, dal servizio all'assistenza, dalla logistica al marketing, dal supporto ai rivenditori alle consegne, ogni giorno e in ogni parte del mondo. Per Stefanplast la qualità è un'abitudine.

Every day we are committed to improving our production standards and our efficiency, and to making long-lasting and superior quality items. What is distinguishing is the quality of our ideas, in a continuous and widespread development that involves every aspect of company life: from design to production, from service to after sales care, from logistics to marketing, from dealer support to deliveries, every day and to all regions of the world. For Stefanplast quality is an attitude.

## casa, giardino, pet

home, garden, pet

Stefanplast, fondata nel 1964, forte della sua presenza radicata nel territorio vicentino, è tra le aziende leader in Italia nella produzione di articoli in plastica per i settori casalingo, giardino e pet. In 60 anni di storia, abbiamo maturato un'esperienza e una conoscenza profonda nella realizzazione di manufatti di qualità, funzionali e durevoli nel tempo, accompagnando l'evoluzione di ogni prodotto al gusto e agli stili di vita. Ad oggi sono oltre 1000 gli articoli a catalogo, accomunati da un design rigorosamente italiano e studiati per rispondere alle esigenze quotidiane di ciascuno di noi, in casa, all'aperto e con i nostri amici animali. Molto riconosciuti nel mercato italiano, esportiamo la qualità Stefanplast "100% Made in Italy" in oltre 70 paesi nel mondo.

Stefanplast, founded in 1964, rooted in the Vicenza area, is among the leading companies in Italy in the production of plastic items for the household, garden and pet sectors. In 60 years of history, we have gained experience and a deep knowledge in the production of quality, functional and durable products, accompanying the evolution of every product to taste and lifestyles. Today there are more than 1000 articles, all with rigorously Italian style and designed to meet the daily needs of each of us, at home, outdoors and with our animal friends. Highly recognized in the Italian market, we export the "100% Made in Italy" Stefanplast quality in over 70 countries worldwide.

## ricerca e sviluppo research and development

Specializzazione, innovazione e qualità negli standard produttivi guidano costantemente i nostri processi e servizi. Sosteniamo l'idea di cambiare, orientandoci verso la ricerca, e crediamo nella sperimentazione, cercando di promuovere con forza e determinazione un livello di conoscenza che porti al raggiungimento di nuove prospettive future, etiche e ambientali. Questa è la visione di Stefanplast, di oggi e di domani.

Specialization, innovation and quality of our production standards constantly guide Stefanplast processes and services. We support the idea of changing, moving towards research and we believe in experimentation, promoting with strength and determination a knowledge level which leads to the achievement of new ethical and environmental prospects. This is Stefanplast vision of today and tomorrow.

## strategia strategy

Ampliamo ogni anno le nostre collezioni con nuovi prodotti ricercati nello stile e nei colori. I nostri imballi sono ottimizzati per offrire la massima praticità di gestione e le nostre spedizioni, puntuali e veloci, sono garantite da importanti scorte di magazzino.

Every year we extend our collections with new products in sought-after designs and colours. Our packaging is optimized for maximum ease of management and our shipments are timely, fast and guaranteed by large warehouse stocks.

# vision

## assistenza e comunicazione assistance and communication

La conoscenza del mercato ci permette di affinare costantemente la nostra organizzazione nella distribuzione e nella vendita garantendo inoltre un'assistenza veloce e qualificata. Supportiamo la vendita con importanti piani di comunicazione e promozione offline e online.

An understanding of the market allows us to constantly refine our company in distribution and sales also guaranteeing fast and qualified customer support. We support sales with significant communication and promotion plans both offline and online.

I social media sono il luogo per eccellenza in cui incontrare i propri fan. Per questo motivo abbiamo sviluppato una strategia di comunicazione digitale coordinata e multicanale che racconta i valori distintivi del brand e le novità del mondo Stefanplast attraverso contenuti originali, utili e coinvolgenti, dialogando costantemente con la nostra community.

Social media are the best place to meet fans. For this reason we have developed a coordinated and multichannel digital communication strategy that tells the brand's distinctive values and the innovations of the Stefanplast world through original, useful and engaging contents, constantly communicating with our community.

# sviluppo responsabile

responsible development

IL FUTURO È OGGI  
THE FUTURE IS NOW

## Ricerca dell'efficienza per ridurre sprechi e consumi Pursuit of efficiency to reduce waste and consumption

Materie prime, efficienza energetica, riprogettazione degli stabilimenti per un massimo rendimento della luce naturale, ottimizzazione della logistica interna e dell'asset produttivo: azioni fondamentali per raggiungere una concreta responsabilità eco-sostenibile.

Raw materials, energy efficiency, reorganization of the plants to make the most of the natural light, optimization both of the internal logistic and the production asset: fundamental actions to reach a concret sustainable responsibility.

## Ottimizzazione dei packaging Packaging optimization

I nostri imballaggi sono sviluppati e realizzati in modo tale da ridurre l'impatto ambientale e rafforzare l'impronta ecologica di Stefanplast: siano essi di cartone oppure pellicole e involucri sono tutti differenziabili e riciclabili al 100%. La nostra azienda, inoltre, sta attuando importanti progetti di transizione verso l'eliminazione di imballi monouso sia per i nostri prodotti finiti che per i semilavorati di produzione. Per questi utilizziamo contenitori in plastica modulari, realizzati con il 100% di materiale riciclato: una scelta responsabile che riduce il dispendio e permette una migliore gestione dello spazio.

Our packaging has been developed and manufactured to reduce Stefanplast environmental impact and enhance its ecological footprint. Whether they are made of cardboard or films or wrappings, they can be sorted and 100% recycled. In addition, our company is promoting key transition projects towards the elimination of disposable packaging for both our finished and semi-finished products. For the latter, we use modular plastic containers made of 100% recycled material: a responsible choice that reduces waste and allows better space management.

## Presse ad iniezione e impianti ausiliari a basso consumo energetico Energy-efficient injection machines and auxiliary facilities

L'80% del nostro parco macchine è completamente elettrico. Adottiamo un innovativo sistema di miglioramento della power quality per una reale efficienza: ogni kWh risparmiato equivale a circa 0,450 Kg di minori emissioni di CO2.

The 80% of our injection machines is fully electric. We use an innovative power quality improvement system which provides a real energy efficiency: each kWh saved is equivalent to approximately a 0.450 kg reduction in CO2 emissions.

## Investimenti nell'ottimizzazione energetica e in nuovi impianti fotovoltaici Investments in energy optimization and in new photovoltaic systems

I progetti per la riduzione dei consumi e l'installazione di un nuovo impianto fotovoltaico ci permetterà di raggiungere entro il 2024 l'obiettivo di una copertura del 35% del nostro fabbisogno energetico.

The consumption reduction projects together with the installation of a new photovoltaic system will allow us to reach the goal of covering the 35% of our energy needs by 2024.

## Responsabilità sociale Social responsibility

Siamo costantemente impegnati in azioni a sostegno della salvaguardia dell'ambiente e supportiamo progetti in ambito medico, sportivo, culturale e a favore della collettività.

We are constantly engaged in actions that support the environmental protection and we sustain projects in the medical, sporting, cultural sphere and in favor of the community.

IL FUTURO È OGGI  
THE FUTURE IS NOW

## Prodotti riciclabili al 100%

100% recyclable products

L'aspetto ecologico dell'intera filiera progettuale e produttiva di Stefanplast, è indirizzata sempre più verso un ruolo di rispetto all'ambiente, utilizzando materiali durevoli nel tempo, ma completamente smaltibili in ogni loro parte, alla fine del ciclo di vita.

The Stefanplast planning and production chain is increasingly focused on an eco-friendly role to respect the environment by using durable materials which can be totally disposed of and recycled at the end of their lifecycle.

## Ampliamento del sistema di macinatura interna per un utilizzo sostenibile delle materie produttive di scarto.

Enlargement of the internal grinding system for a sustainable use of waste production materials.

Acquisizione di nuovi macinatori, grazie ai quali ottimizziamo la gestione degli scarti produttivi, recuperando più velocemente il materiale di riciclo. La filiera poi prosegue esternamente la sua finalizzazione; il materiale plastico rigenerato torna in azienda per essere nuovamente ristampato negli articoli più compatibili.

Acquisition of new grinders, thanks to which we optimize the management of production waste, recovering the recycled material faster. The supply chain then continues its finalization externally; the regenerated plastic material returns to the company to be used again in the most suitable articles.

## Riciclo della plastica

Plastic recycling

Attraverso un mirato e intelligente utilizzo di materia riciclata, Stefanplast realizza le nuove produzioni. Recuperiamo il 100% dei nostri scarti industriali e oltre il 30% di materiale plastico proveniente da riciclo certificato di produzione esterna (POST-INDUSTRIAL) e da raccolta differenziata (POST-CONSUMO). Fa ormai parte della consapevolezza del cliente riconoscere un prodotto ecologico anche dai toni di colore eterogenei fra loro.

Through a targeted and smart use of recycled materials Stefanplast makes its new productions.

We recover 100% of our industrial waste and more than 30% of plastic material which comes from certified recycling of external productions (POST-INDUSTRIAL) and from separate collection (POST-CONSUMPTION).

Nowadays customers can see the difference between an ecological product and other ones by its uneven colouring.

plastic **Regeneration**

## Prodotti riciclati e riciclabili

### Recycled and recyclable products

Grazie ad un ampliamento dei nostri impianti di riciclo meccanici possiamo aumentare la quantità di risorse già esistenti impiegate in diverse collezioni, per ridurre l'impatto ambientale; molti dei nostri prodotti sono ottenuti da una % di materiale rigenerato.

Nell'ambito di un'economia circolare la plastica è la protagonista principale di un riutilizzo continuo e l'impiego proficuo di risorse post-industrial e post-consumo è il modo migliore per muoversi verso la sostenibilità ambientale.

Thanks to an enlargement of our mechanical recycling plants we can improve the quantity of existing resources used in various collections, in order to further reduce the environmental impact; many of our products are obtained from a % of already regenerated material. In the circular economy context plastic is the main protagonist of a continuous reuse and the profitable application of post-industrial and post-consumer resources is the best way to move towards environmental sustainability.
