home style

Una casa accogliente, con il giusto mix di personalità e praticità, di funzionalità e calore mediterraneo: è la casa Stefanplast. Prodotti per la tavola e cucina, ceste, portabiancheria, bidoncini portarifiuti, accessori per il contenimento e molto altro: un universo di costante ricerca e attenzione ai bisogni più attuali, nel quale l'evoluzione della materia, la sperimentazione e la continua crescita stilistica permettono a Stefanplast di inventare sempre nuovi linguaggi estetici. Cromie soft, vivaci ed energizzanti e una cura estrema dei dettagli regalano il piacere del vivere quotidiano.

A cozy home, with a proper mix of personality and ease of use, functionality and Mediterranean warmth: this is Stefanplast home. Table and kitchen products, laundry baskets, laundry hampers, bins, storage products and more: a world of constant research and care of the current needs, in which the development of materials, experimentation and stylistic growth allow Stefanplast to continuously invent new aesthetical languages. Soft, lively, energizing colours and an extreme care of details give you the everyday enjoyment of life.

design

Soluzioni progettuali innovative e funzionali, cura dei particolari e delle forme. Questi sono gli obiettivi che i designer Stefanplast studiano quotidianamente per dare origine a prodotti che migliorino la qualità della vita.

Innovative and functional design solutions, attention to detail and forms. These are the goals that Stefanplast designers study daily to give rise to products that improve the quality of life.

qualità e certificazioni quality and certification

Ogni giorno un impegno costante nel miglioramento degli standard produttivi e dell'efficienza, per realizzare manufatti di qualità superiore e durevoli nel tempo. A distinguerci è soprattutto la qualità del pensare, in una continua e capillare evoluzione che si estende ad ogni aspetto dell'attività aziendale: dalla progettazione alla produzione, dal servizio all'assistenza, dalla logistica al marketing, dal supporto ai rivenditori alle consegne, ogni giorno e in ogni parte del mondo. Per Stefanplast la qualità è un'abitudine.

Every day we are committed to improving our production standards and our efficiency, and to making long-lasting and superior quality items. What is distinguishing is the quality of our ideas, in a continuous and widespread development that involves every aspect of company life: from design to production, from service to after sales care, from logistics to marketing, from dealer support to deliveries, every day and to all regions of the world. For Stefanplast quality is an attitude.

casa, giardino, pet home, garden, pet

Stefanplast, fondata nel 1964, forte della sua presenza radicata nel territorio vicentino, è tra le aziende leader in Italia nella produzione di articoli in plastica per i settori casalingo, giardino e pet. In oltre 60 anni di storia, abbiamo maturato un'esperienza e una conoscenza profonda nella realizzazione di manufatti di qualità, funzionali e durevoli nel tempo, accompagnando l'evoluzione di ogni prodotto al gusto e agli stili di vita. Ad oggi sono oltre 1000 gli articoli a catalogo, accomunati da un design rigorosamente italiano e studiati per rispondere alle esigenze quotidiane di ciascuno di noi, in casa, all'aperto e con i nostri amici animali. Molto riconosciuti nel mercato italiano, esportiamo la qualità Stefanplast "100% Made in Italy" in oltre 70 paesi nel mondo.

Stefanplast, founded in 1964, rooted in the Vicenza area, is among the leading companies in Italy in the production of plastic items for the household, garden and pet sectors. In over 60 years of history, we have gained experience and a deep knowledge in the production of quality, functional and durable products, accompanying the evolution of every product to taste and lifestyles. Today there are more than 1000 articles, all with rigorously Italian style and designed to meet the daily needs of each of us, at home, outdoors and with our animal friends. Highly recognized in the Italian market, we export the "100% Made in Italy" Stefanplast quality in over 70 countries worldwide.

vision

ricerca e sviluppo research and development

Specializzazione, innovazione e qualità negli standard produttivi guidano costantemente i nostri processi e servizi. Sosteniamo l'idea di cambiare, orientandoci verso la ricerca, e crediamo nella sperimentazione, cercando di promuovere con forza e determinazione un livello di conoscenza che porti al raggiungimento di nuove prospettive future, etiche e ambientali. Questa è la visione di Stefanplast, di oggi e di domani.

Specialization, innovation and quality of our production standards constantly guide Stefanplast processes and services. We support the idea of changing, moving towards research and we believe in experimentation, promoting with strength and determination a knowledge level which leads to the achievement of new ethical and environmental prospects. This is Stefanplast vision of today and tomorrow.

strategia strategy

Ampliamo ogni anno le nostre collezioni con nuovi prodotti ricercati nello stile e nei colori. I nostri imballi sono ottimizzati per offrire la massima praticità di gestione e le nostre spedizioni, puntuali e veloci, sono garantite da importanti scorte di magazzino.

Every year we extend our collections with new products in sought-after designs and colours. Our packaging is optimized for maximum ease of management and our shipments are timely, fast and guaranteed by large warehouse stocks.

assistenza e comunicazione assistance and communication

La conoscenza del mercato ci permette di affinare costantemente la nostra organizzazione nella distribuzione e nella vendita garantendo inoltre un'assistenza veloce e qualificata. Supportiamo la vendita con importanti piani di comunicazione e promozione offline e online.

An understanding of the market allows us to constantly refine our company in distribution and sales also guaranteeing fast and qualified customer support. We support sales with significant communication and promotion plans both offline and online.

strategia Social Social media strategy

I social media sono il luogo per eccellenza in cui incontrare i propri fan. Per questo motivo abbiamo sviluppato una strategia di comunicazione digitale coordinata e multicanale che racconta i valori distintivi del brand e le novità del mondo Stefanplast attraverso contenuti originali, utili e coinvolgenti, dialogando costantemente con la nostra community.

Social media are the best place to meet fans. For this reason we have developed a coordinated and multi-channel digital communication strategy that tells the brand's distinctive values and the innovations of the Stefanplast world through original, useful and engaging contents, constantly communicating with our community.

sviluppo responsabile

responsible development

In un contesto in cui la responsabilità ambientale è sempre più concreta, Stefanplast ha definito un percorso certificato nell'uso di materiali sostenibili, adottando la certificazione Plastica Seconda Vita (PSV) per alcuni prodotti. Diversi articoli sono realizzati in PSV da scarto industriale, plastica riciclata e tracciata, riducendo l'impiego di materia prima vergine senza compromettere qualità e prestazioni.

Stefanplast propone anche prodotti certificati PSV Mix Eco, che combinano materiale vergine con rifiuti industriali e/o da raccolta differenziata, offrendo un equilibrio tra sostenibilità, affidabilità e continuità produttiva.

Pur differenti per origine, entrambe le certificazioni rappresentano un valore strategico e testimoniano un impegno tangibile nel fornire soluzioni responsabili, certificate e trasparenti, in linea con un mercato sempre più attento all'impatto ambientale. Plastica Seconda Vita è riconosciuta da PolyCertEurope, la piattaforma europea delle certificazioni sul contenuto di plastica riciclata, diventando un riferimento autorevole nella sostenibilità industriale e commerciale.

In a context where environmental responsibility is becoming increasingly concrete, Stefanplast has established a certified pathway for the use of sustainable materials, adopting the Plastic Second Life (PSV) certification for certain products. Several items are made from PSV derived from industrial waste-recycled and fully traceable plastic-reducing the use of virgin raw materials without compromising quality or performance.

Stefanplast also offers products certified as PSV Mix Eco, which combine virgin material with industrial and/or post-consumer waste, providing a balance between sustainability, reliability, and production continuity.

Although different in origin, both certifications represent a strategic value, demonstrating a tangible commitment to providing responsible, certified, and transparent solutions, in line with a market increasingly focused on environmental impact. Plastic Second Life is recognized by PolyCertEurope, the European platform for recycled plastic content certification, establishing itself as an authoritative benchmark in industrial and commercial sustainability.

DOMUS
home collection

Anche la linea Domus rientra nel percorso di certificazione Plastica Seconda Vita Mix Eco per ampliare un'offerta sempre più attenta e sostenibile. Attualmente sono in fase di certificazione PSV Mix Eco i seguenti articoli della collezione: portabiancheria 50L, cassetiera a 4 cassetti, pattumiera 20L, pattumiera da bagno 6L e portascopino. Anche i prodotti facenti parte dell'ampliamento di gamma Domus che sarà disponibile nel 2026, saranno sviluppati secondo gli stessi standard e percorso di certificazione PSV Mix Eco.

The Domus line is also part of the Plastic Second Life Mix Eco certification pathway, expanding an increasingly sustainable and responsible product offering. Currently, the following items from the collection are undergoing PSV Mix Eco certification: the 50L laundry hamper, 4 drawers unit, 20L dustbin, 6L bathroom dustbin, and toilet brush. Additionally, products from the upcoming Domus range expansion, set to be available in 2026, will be developed according to the same standards and PSV Mix Eco certification pathway.

plastic ReGeneration

sviluppo responsabile

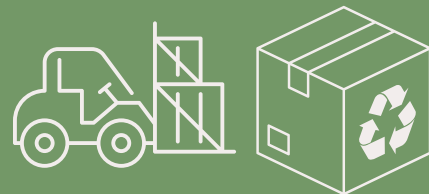

responsible development

Ricerca dell'efficienza per ridurre sprechi e consumi Pursuit of efficiency to reduce waste and consumption

Materie prime, efficienza energetica, riprogettazione degli stabilimenti per un massimo rendimento della luce naturale, ottimizzazione della logistica interna e dell'asset produttivo: azioni fondamentali per raggiungere una concreta responsabilità eco-sostenibile.

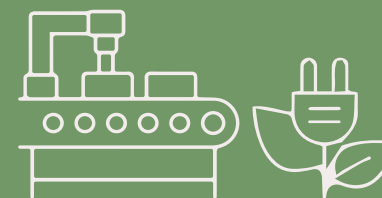

Raw materials, energy efficiency, reorganization of the plants to make the most of the natural light, optimization both of the internal logistic and the production asset: fundamental actions to reach a concret sustainable responsibility.

Ottimizzazione dei packaging Packaging optimization

Ogni imballaggio racconta il nostro impegno per un futuro più sostenibile. Usiamo scatole in cartone riciclato, provenienti da fornitori certificati FSC, e sacchetti realizzati in plastica riciclata. Una scelta consapevole, che unisce rispetto per l'ambiente e cura per i dettagli. Tutti i materiali sono facilmente differenziabili e 100% riciclabili, perché crediamo che ogni gesto possa fare la differenza. La nostra azienda, inoltre, sta attuando importanti progetti di transizione verso l'eliminazione di imballi monouso sia per i nostri prodotti finiti che per i semilavorati di produzione. Per questi utilizziamo contenitori in plastica modulari, realizzati con il 100% di materiale riciclato: una scelta responsabile che riduce il dispendio e permette una migliore gestione dello spazio.

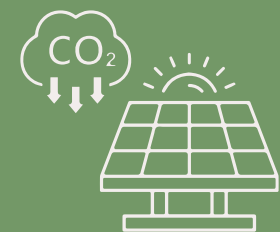

Every package reflects our commitment to a more sustainable future. We use recycled cardboard boxes from FSC-certified suppliers, and bags made of recycled plastic. A well-aware choice that combines environmental responsibility with attention to detail. All materials are easy to sort and 100% recyclable, because we believe every small action can make a big difference. In addition, our company is promoting key transition projects towards the elimination of disposable packaging for both our finished and semi-finished products. For the latter, we use modular plastic containers made of 100% recycled material: a responsible choice that reduces waste and allows better space management.

Presse ad iniezione e impianti ausiliari a basso consumo energetico Energy-efficient injection machines and auxiliary facilities

L'85% del nostro parco macchine è completamente elettrico. Adottiamo un innovativo sistema di miglioramento della power quality per una reale efficienza: ogni kWh risparmiato equivale a circa 0,450 Kg di minori emissioni di CO₂.

The 85% of our injection machines is fully electric. We use an innovative power quality improvement system which provides a real energy efficiency: each kWh saved is equivalent to approximately a 0.450 kg reduction in CO₂ emissions.

Investimenti nell'ottimizzazione energetica e in nuovi impianti fotovoltaici Investments in energy optimization and in new photovoltaic systems

I progetti per la riduzione dei consumi e l'installazione di un nuovo impianto fotovoltaico ci permetterà di raggiungere entro il 2026 l'obiettivo di una copertura del 35% del nostro fabbisogno energetico.

The consumption reduction projects together with the installation of a new photovoltaic system will allow us to reach the goal of covering the 35% of our energy needs by 2026.

Responsabilità sociale Social responsibility

Siamo costantemente impegnati in azioni a sostegno della salvaguardia dell'ambiente e supportiamo progetti in ambito medico, sportivo, culturale e a favore della collettività.

We are constantly engaged in actions that support the environmental protection and we sustain projects in the medical, sporting, cultural sphere and in favor of the community.

sviluppo responsabile

responsible development

Prodotti riciclabili al 100% 100% recyclable products

L'aspetto ecologico dell'intera filiera progettuale e produttiva di Stefanplast, è indirizzata sempre più verso un ruolo di rispetto all'ambiente, utilizzando materiali durevoli nel tempo, ma completamente smaltibili in ogni loro parte, alla fine del ciclo di vita.

The Stefanplast planning and production chain is increasingly focused on an eco-friendly role to respect the environment by using durable materials which can be totally disposed of and recycled at the end of their lifecycle.

Ampliamento del sistema di macinatura interna per un utilizzo sostenibile delle materie produttive di scarto

Enlargement of the internal grinding
system for a sustainable use of waste
production materials

Acquisizione di nuovi macinatori, grazie ai quali ottimizziamo la gestione degli scarti produttivi, recuperando più velocemente il materiale di riciclo. La filiera poi prosegue esternamente la sua finalizzazione; il materiale plastico rigenerato torna in azienda per essere nuovamente ristampato negli articoli più compatibili.

Acquisition of new grinders, thanks to which we optimize the management of production waste, recovering the recycled material faster. The supply chain then continues its finalization externally; the regenerated plastic material returns to the company to be used again in the most suitable articles.

Riciclo della plastica Plastic recycling

Attraverso un uso consapevole e intelligente di materiali riciclati, Stefanplast trasforma la plastica di ieri nei prodotti sostenibili di domani. Diamo nuova vita al 100% dei nostri scarti interni e integriamo la nostra produzione con oltre il 30% di materiale riciclato, proveniente da processi industriali esterni (PRE-CONSUMO) e da raccolta differenziata (POST-CONSUMO). Un impegno concreto per un'economia sempre più circolare. Fa ormai parte della consapevolezza del cliente riconoscere un prodotto ecologico anche dai toni di colore eterogenei fra loro.

Through a conscious and smart use of recycled materials, Stefanplast transforms yesterday's plastic into tomorrow's sustainable products. We give new life to 100% of our internal waste and complement our production with over 30% recycled material sourced from external industrial processes (PRE-CONSUMER) and from separate waste collection (POST-CONSUMER). A tangible commitment to an increasingly circular economy. Nowadays customers can see the difference between an ecological product and other ones by its uneven colouring.

PP5 (Polipropilene)	SAN (Styrene Acrylonitrile)	HDPE2 (Polietilene ad Alta Densità)
Leggero e resistente agli urti, con ottimo equilibrio tra flessibilità e solidità meccanica.	Plastica trasparente e lucida, molto rigida.	Opaco, di colore naturale o bianco.
Stabilità termica fino a +80°C e resistenza al freddo fino a -15°C.	Stabilità termica fino a +90°C e esistenza al freddo fino a -10°C.	Eccellente resistenza a urti, agenti chimici e sbalzi di temperatura.
Non assorbe odori né umidità, grasso, oli, sali alcali.	Ideale per contenitori alimentari ad alta visibilità.	Stabilità termica fino a +80°C e resistenza al freddo fino a -40°C.
Elevata resistenza chimica.	Non assorbe liquidi, odori, umidità, grasso, oli, sali alcali.	Non assorbe liquidi, odori, umidità, grasso, oli, sali alcali Ideale per ambienti refrigerati.
Facile da pulire e lavabile in lavastoviglie.	Facile da pulire e lavabile in lavastoviglie.	Facile da pulire e lavabile in lavastoviglie.

PP5 (Polypropylene)	SAN (Styrene Acrylonitrile)	HDPE2 (High-Density Polyethylene)
Lightweight and impact-resistant, with an excellent balance between flexibility and mechanical strength.	Transparent, glossy and very rigid plastic.	Opaque, natural or white in color.
Thermal stability up to +80°C and resistance to cold down to -15°C.	Thermal stability up to +90°C and resistance to cold down to -10°C.	Excellent resistance to impacts, chemicals, and temperature fluctuations.
Does not absorb odors, moisture, grease, oils, or alkaline salts. High chemical resistance.	Ideal for high-visibility food containers.	Thermal stability up to +80°C and resistance to cold down to -40°C.
Easy to clean and dishwasher safe.	Does not absorb liquids, odors, moisture, grease, oils, or alkaline salts.	Does not absorb liquids, odors, moisture, grease, oils, or alkaline salts.
	Easy to clean and dishwasher safe.	Ideal for refrigerated environments.
		Easy to clean and dishwasher safe.

LDPE4 (Polietilene a Bassa Densità)	TPE7 (Gomma Termoplastica)
Morbido, traslucido e altamente flessibile.	Elastico e morbido al tatto, eccellente flessibilità, recupera sempre la forma originale.
Resistente agli urti e in grado di recuperare la forma dopo deformazioni.	Resistente agli urti e in grado di recuperare la forma dopo deformazioni.
Stabilità termica fino a +80°C e resistenza al freddo fino a -20°C.	Stabilità termica fino a +80°C e resistenza al freddo fino a -40°C.
Non assorbe liquidi, odori, umidità, grasso, oli, sali alcali.	Buona resistenza chimica.
Adatto in applicazioni che richiedono trasparenza e resistenza chimica.	Proprietà antiscivolo e ammortizzanti.
Facile da pulire e lavabile in lavastoviglie.	Facile da pulire e lavabile in lavastoviglie.

LDPE4 (Low-Density Polyethylene)	TPE7 (Thermoplastic Elastomer)
Soft, translucent, and highly flexible.	Elastic and soft to the touch, with excellent flexibility, always returning to its original shape.
Impact-resistant and able to regain its shape after deformation.	Impact-resistant and able to recover its form after deformations.
Thermal stability up to +80°C and resistance to cold down to -20°C.	Thermally stable up to +80°C and resistant to cold down to -40°C.
Does not absorb liquids, odors, moisture, grease, oils, or alkaline salts.	Good chemical resistance.
Suitable for applications requiring transparency and chemical resistance.	Non-slip and shock-absorbing properties.
Easy to clean and dishwasher safe.	Easy to clean and dishwasher safe.

Caro Cliente, vi comunichiamo che non vedrete più la dicitura “BPA FREE” sulle confezioni dei nostri prodotti: non perché il materiale sia cambiato, ma perché non c’è più bisogno di ribadirlo. La sicurezza dei nostri articoli è già garantita dalla normativa europea e dai nostri controlli interni, e continuerà a esserlo ogni giorno.

Dear Customer, we would like to inform you that our products will no longer carry the “BPA FREE” label on the packaging. This is not because the material has changed, but simply because it is no longer necessary to highlight it. The safety of our items is already ensured by European regulations and our internal quality controls and it will continue to be guaranteed every day.
